RE: **EM-SPRINT-054-180326** - Sprint notice of intent to modify an existing telecommunications facility located at 374 Three Mile Road, Glastonbury, Connecticut.

Dear Ms. Ardis:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on March 26, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified the following discrepancies:

- 1) Proof of proper notice was not provided. The Council issued a memorandum to entities requesting exempt modifications on June 22, 2017, requiring a copy of the entire notice and attachments be physically mailed to the chief elected official of the host municipality and the underlying property owner (Title Sheet T-1 of the site plans indicates Josephine and John Flanagan as property owner) and proof of such mailing shall be submitted to the Council with the exempt modification filing. See attached; and
- 2) The Site Plan prepared by Hudson Design Group latest revision dated December 4, 2017 under special construction note the tower top work is contingent on the completion of an Antenna Mount Assessment.

The above-referenced request for an exempt modification lacks proof that the entire filing was physically mailed to the chief elected official of the host municipality and the underlying property owner and the Antenna Mount Assessment was not submitted.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Transcend Wireless provide notice to the proper underlying property owner and proof of proper notice of this exempt modification filing to the chief elected official of the host municipality and the underlying property owner and provide the Antenna Mount Assessment, demonstrating the antenna mount would not exceed 100 percent of its post-construction structural rating, on or before May 3, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to May 3, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman

Subject: RE: 41 Padanaram Road, Danbury CT 06811 (CT11896A L1900) T-Mobile Antenna EM Application

Good afternoon.

I received a call from Robin Edwards, Corporation Counsel for the City of Danbury. She was concerned about how notice of this request was provided to the City and indicated that it appeared the request was submitted through their "311 service?" From their website, this appears to be a City Service Request Form. I snipped the link to it below for your convenience. The cover letter indicates that a copy was sent to the Mayor and the Director of Planning. Could someone please confirm that a copy of the letter was actually sent rather than submitted to the "311 service" when you have a chance?

Thanks.
