## Final Report of Special Inspections

Project: CTHA026A  
Location: 63-80 Woodland Street Glastonbury, CT 06073  
Owner: T-Mobile  
Engineer of Record: Daniel P. Hamm, P.E.  
TEP OPCO, LLC

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of TEP OPCO, LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on July 21<sup>st</sup>, 2025.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2021 with 2022 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-H), and the following:

1. Final Construction Drawings dated 10/11/2024, prepared by TEP OPCO, LLC.
2. Final Mount Analysis dated 08/30/2024, prepared by TEP OPCO, LLC

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,  
Special Inspector
