Re: **EM-VER-056-130726 – Cellco Partnership d/b/a Verizon Wireless**
150 Lost Acres Road, Granby, Connecticut

Dear Ms. Bachman:

On August 13, 2013, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 150 Lost Acres Road in Granby. The modification involved the replacement of certain antennas.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations specified in the structural report were implemented. Attached is a Tower Modification Certification Letter verifying that these conditions have been satisfied. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Existing Telecommunications Facility Tower Certification Letter

Project: Verizon North Granby
150 Lost Acres Road
Granby, CT

Tower Owner: SBA Communications

Engineer: FDH Engineering
6521 Meridien Drive
Raleigh, NC 27616

Centek Project No.: 14055.047

CSC Exempt Mod Reference No.: EM-VER-056-130726

Dear Mr. Gauger,

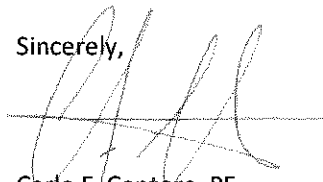

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1340051400) dated June 21, 2013:

- ☐ Review of the FDH structural analysis report dated 06/21/2013.
- ☐ Field observations by Centek personnel of the coax installation on 12/10/2014 which determined all coax lines were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 06/21/2013.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
