Wireless Telecommunications Facility

Dear Robert,

I, Chad Tuttle, P.E., a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photos provided by the client and taken on January 18, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided, As Built drawings certified by Prescott Tower Service LTD. dated January 27, 2023, and construction drawings by B+T Group dated September 2, 2021, I hereby certify that to the best of my knowledge, information, and belief all improvements are in substantial compliance with the permitted construction plans approved by the Town of Griswold and that the improvements meet the intent of the applicable Codes listed on said plans (e.g. 2018 Connecticut State Building Code).

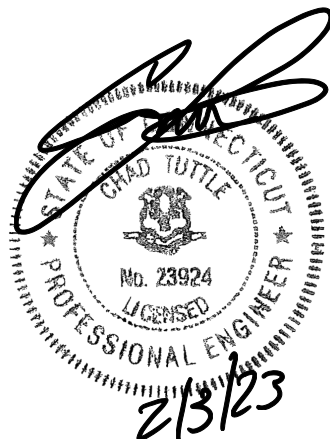

In my professional opinion, any minor deviations from the plans and specifications will not prevent the project from functioning in compliance with the requirements of the Town of Griswold and other applicable regulatory agencies listed in the plans.

Should you have any additional questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer's Certification of Completion prepared by: Jennifer Tillson, E.I.

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
