Re: **EM-VER-059T-220524 – Cellco Partnership d/b/a Verizon Wireless  
Telecommunications Facility, 1662 Route 184 (a/k/a Gold Star Memorial Highway),  
Groton, Connecticut**

### **Completion of Construction**

Dear Attorney Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced facility modification has been completed.

As required by the Council's approval, attached is a letter from Tower Engineering Professionals, LLC dated October 16, 2023, verifying that the facility modifications were completed in accordance with the September 30, 2021, Mount Analysis Report prepared by Maser Consulting. Photographs of the completed improvements are also attached.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

## Final Report of Special Inspections

Project: Verizon: Groton 6 CT (535825) / SBA: CT13073-A (Groton North)

Location: 1662 Gold Star Memorial Highway, Groton, CT 06340

Owner: Carrier: Verizon Wireless / Tower: SBA Communications

Engineer of Record: Daniel P. Hamm, P.E.

Tower Engineering Professionals, LLC (TEP OPCO, LLC)

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of TEP Northeast performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on September 26, 2023.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G-2), and the following:

1. Final Rev. 1 Construction Drawings dated 05/19/2022, prepared by Hudson Design Group LLC, entitled "5GSB6 2021."
2. Final Mount Analysis dated 09/30/2021, prepared by Maser Consulting Connecticut.
3. Final Structural Analysis dated 03/15/2022, prepared by Tower Engineering Professionals.
4. Final Rev. 0 Mount Modification Drawings dated 09/30/2021 prepared by Maser Consulting Connecticut.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,  
Special Inspector

Daniel P. Hamm, P.E.
