Wireless Telecommunications Facility

Dear Louis Nalbatian,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated July 6, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Flynn Salisbury of Ericsson EFS, dated July 7, 2023; and the construction drawings by B+T Group dated May 31, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Groton (last revised May 31, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2015 IBC and NEC 2017).

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the Town of Groton and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer’s Certification of Completion prepared by: Mark Wesel

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
