RE: **EM-SPRINT-061-180130** - Sprint notice of intent to modify an existing telecommunications facility located at 139 Morris Hubbard Road, Higganum (Haddam), Connecticut.

Dear Mr. Perkowski:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on January 30, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a discrepancy between the Structural Analysis Report ATC Site Number 302494 dated September 21, 2017 and the site plan sheet number A-2 which references a "Sprint DO Macro Project Mount Analysis dated December 12, 2017." The Structural Analysis Report does not account for the data referenced in the "Sprint DO Macro Project Mount Analysis" which requires installing additional mount hardware.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Airosmith Development provide an Updated Structural Analysis Report including the additional mount hardware on or before March 12, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to March 12, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director

MAB/FC
