RE: **EM-VER-062-080213** – Celco Partnership d/b/a Verizon Wireless notice of intent to modify an existing telecommunications facility located at 150 Willow Street, Hamden, Connecticut.

Dear Attorney Baldwin:

I am in receipt of your letter dated April 24, 2009 in which Celco Partnership d/b/a Verizon Wireless seeks to install a 50-foot section of stockade fence along the south side of the fenced compound, as well as three warning signs to promote the safety of telecommunications technicians visiting the site. Such installation is not inconsistent with the Connecticut Siting Council's exempt modification acknowledgement dated March 26, 2008. Your letter will be placed in the file on this matter.

Sincerely,

S. Derek Phelps
Executive Director

Re: **EM-VER-062-080213 - Exempt Modification**
150 Willow Street, Hamden, Connecticut

Dear Mr. Perrone:

On March 26, 2008, the Council approved the request of Cellco Partnership d/b/a Verizon Wireless ("Cellco") to modify the Sprint Nextel facility at 150 Willow Street in Hamden. Following recent discussions, Cellco and the property owner agreed to two additional minor modifications of which we wanted to make the Council aware. First, Cellco intends to install a 50-foot section of stockade fencing along the southerly side of the facility compound attached to the outside of the existing chain link fence. Second, Cellco intends to install three signs, two attached to the existing compound fence gates and one ground-mounted sign placed along the access road. See attached highlighted project plans. Both minor modifications are intended to promote safety for wireless technicians visiting the site.

Please contact me with any questions.
