RE: **TS-T-MOBILE-062-201117** – T-Mobile request for an order to approve tower sharing at an existing telecommunications facility located at 796 Woodin Street, Hamden, Connecticut.

Dear Ms. Masse:

The Connecticut Siting Council (Council) received a tower share request for the above-referenced facility on November 17, 2020. On December 1, 2020, the Council issued a letter stating that the request was incomplete because it was lacking a mount analysis and a statement clarifying if 5G services would be provided as part of the proposed modification. The Council recommended that Northeast Site Solutions provide a passing (<100%) mount analysis that is stamped and signed by a Professional Engineer licensed in the State of Connecticut and a statement clarifying if 5G services or frequencies associated with 5G services are part of the proposed modifications, on or before January 4, 2021.

On December 4, 2020, the Council received an electronic mail which did not include a mount analysis or a statement clarifying if 5G services would be provided.

Therefore, the tower share request remains incomplete at this time. The Council recommends that Northeast Site Solutions provide a passing (<100%) mount analysis that is stamped and signed by a Professional Engineer licensed in the State of Connecticut and a statement clarifying if 5G services or frequencies associated with 5G services are part of the proposed modifications, on or before January 8, 2020. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to January 8, 2020. **Please provide an electronic version of the requested information for the incomplete tower share request to be rendered complete and processed. Please include the Council's tower share identification number referenced above with the submittal**

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

s/ Melanie A. Bachman
