RE: **EM-SPRINT-064-190214** – Sprint notice of intent to modify an existing telecommunications facility located at 99 Meadow Street, Hartford, Connecticut.

Dear Ms. Guzman:

The Connecticut Siting Council (Council) hereby denies your request to modify the above-referenced existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies.

This exempt modification request was submitted to the Council on February 14, 2019. Council staff reviewed this request for completeness and had identified deficiencies that were more fully described in a notice of incompleteness letter to the requesting entity dated March 1, 2019 and recommended that SAC Wireless provide an updated Structural Analysis Report and Construction Drawings that reference the current 2018 Connecticut State Building Code and is consistent with the final equipment configuration proposed in the updated Construction Drawings, on or before April 3, 2019.

The Council received a request for an extension of time in an email on April 3, 2019 and granted a two-month extension of time to submit the required documentation by June 3, 2019. To date, the Council has not received the requested Structural Analysis Report and Construction Drawings.

Thus, the proposed modification is not in compliance with the exemption criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies.

Sincerely,

Melanie Bachman
Executive Director

MAB/IN/emr
