Peter J. Tyrrell Senior Counsel Springwich Cellular Limited Partnership 500 Enterprise Drive Rocky Hill, CT 06067-3900

Re: EM-SCLP-064-981027 - Springwich Cellular Limited Partnership notice of intent to modify an existing telecommunications facility located at 11 Mountain Road in Hartford, Connecticut.

Dear Attorney Tyrrell:

At a public meeting held on November 5, 1998, the Connecticut Siting Council (Council) acknowledged your notice to modify this existing telecommunications facility in Hartford, Connecticut, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies.

The proposed modifications are to be implemented as specified here and in your notice dated October 26, 1998. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by six decibels, and increase the total radio frequency electromagnetic radiation power density measured at the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to General Statutes § 22a-162. This facility has been carefully modeled to ensure that radio frequency emissions are conservatively below State and federal standards applicable to the frequency now used on this tower. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin No. 65. Any deviation from this format may result in the Council implementing enforcement proceedings pursuant to General Statutes § 16-50u including, without limitation, imposition of expenses resulting from such failure and of civil penalties in an amount not less than one thousand dollars per day for each day of construction or operation in material violation.

Thank you for your attention and cooperation.

Wery truly yours,
Western A. Gelster Aut

Mortimer A. Gelston

CONNECTICUT SITING COUNCIL

Re: Springwich Cellular Limited Partnership-Hartford Cell Site

Dear Chairman Gelston:

Springwich Cellular Limited Partnership ("SCLP") plans to install two antennas and related equipment for the Town of West Hartford at our Cellular site located at 11 Mountain Road, Hartford, Connecticut. Please accept this letter as notice of intent, pursuant to R.C.S.A. Section 16-50j-73, of the placement of associated equipment on an existing facility pursuant to R.C.S.A. Section 16-50j-72(b)(2). In further compliance with R.C.S.A. Section 16-50j-73, a copy of this letter is being sent to the Mayor of Hartford.

The existing tower is a 100' monopole tower located at the end of Mountain Road, Hartford, CT. SCLP plans to install two DECIBEL, Model DB809XT type antennas on the tower. SCLP also plans on installing a 8' x 12' equipment building which will contain radio transmission equipment adjacent to the existing tower for the town of West Hartford.

The addition of the Town of West Hartford's antennas and equipment to the tower site does not constitute a substantial environmental affect since such additions do not cause a significant change or alteration in the physical and environmental characteristics of the site (See attached site sketch). Rather, the planned changes to the existing tower falls squarely within those activities explicitly provided for in R.C.S.A. Section 16-50j-72(c).

First, the height of the existing tower will be unaffected. Two DECIBEL, Model DB809XT 9 dB antennas will be attached to the tower at the 60 and 75 foot levels. The center of radiation will be 60' AGL. The tower will not require any structural modification to support the proposed attachments.

Second, the proposed addition will not extend the site boundaries. The fenced area will not be increased, therefore staying within the existing leased parcel to accommodate West Hartford's proposed equipment building. The attached site sketch shows the proposed location of the equipment building in relation to the tower.

Third, the proposed addition will not increase the noise levels at the existing facility by six decibels or more.

Finally, operation of the additional antennas will not increase the total radio frequency electromagnetic radiation power density, measured at the tower base, to a level at or above the ANSI standard. A "worst-case" calculation from a point at the base of the tower indicates that West Hartford's operations result in a 16.36 % of MPE and the total of the tower which includes SNET is 29.7 % MPE. (See chart below)

Company	Freq. Range (MHz)	Power / Channel (Watts)	Number of Channels	Height (CL)	ANSI/IEEE Standards (mWcm ²)	Power Density (mW/cm ²)	Percent of MPE (%)
Town of West Hartford	866.0750 to 868.8125	150	5	60'	0.5774	0.0944	16.36
SNET Cellular Inc.	800 - 894	100	19	100'	0.5867	0.0783	13.34
Total Per Cent Of MPE							29.7

For the foregoing reasons, Springwich Cellular Limited Partnership seeks a ruling that its proposed additions to the facility comply with R.C.S.A. Sections 16-50j-72(b)(2) and therefore request a determination that the placement of the antennas and equipment on the existing non-facility tower site does not constitute a substantial environmental effect.

Thank you for your cooperation and attention to this matter.

Sincerely,

Peter & Tynell

The Honorable Michael Peters City of Hartford 550 Main Street Hartford, Connecticut 06103

Dear Mayor Peters:

Springwich Cellular Limited Partnership (SCLP) plans to place two whip antennas for the town of West Hartford on our existing 100 foot monopole tower, located on Mountain Road in the City of Hartford. These antennas will be utilized by the town for their local and emergency communications.

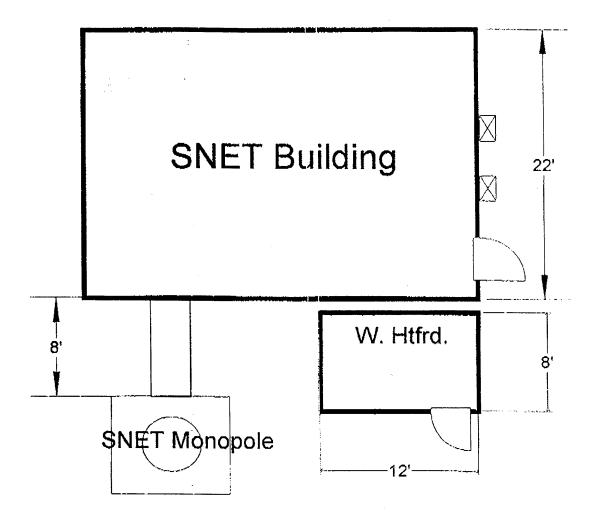

As required by Section 16-50j-73 of the Regulations of Connecticut State Agencies (R.C.S.A.), please accept this letter and the attached letter to the Connecticut Siting Council dated October 26, 1998, as notice of intent of the placement of associated equipment on an existing facility pursuant to R.C.S.A Section 16-50j-72(b)(2).

The attached letter fully describes SCLP's proposal. However, if you have any questions or require any further information on our plans or the Siting Council's procedures, please call me at (860) 513-7755 or Mr. Joel Rinebold, Executive Director, Connecticut Siting Council at (860) 827-2935.

Sincerely,

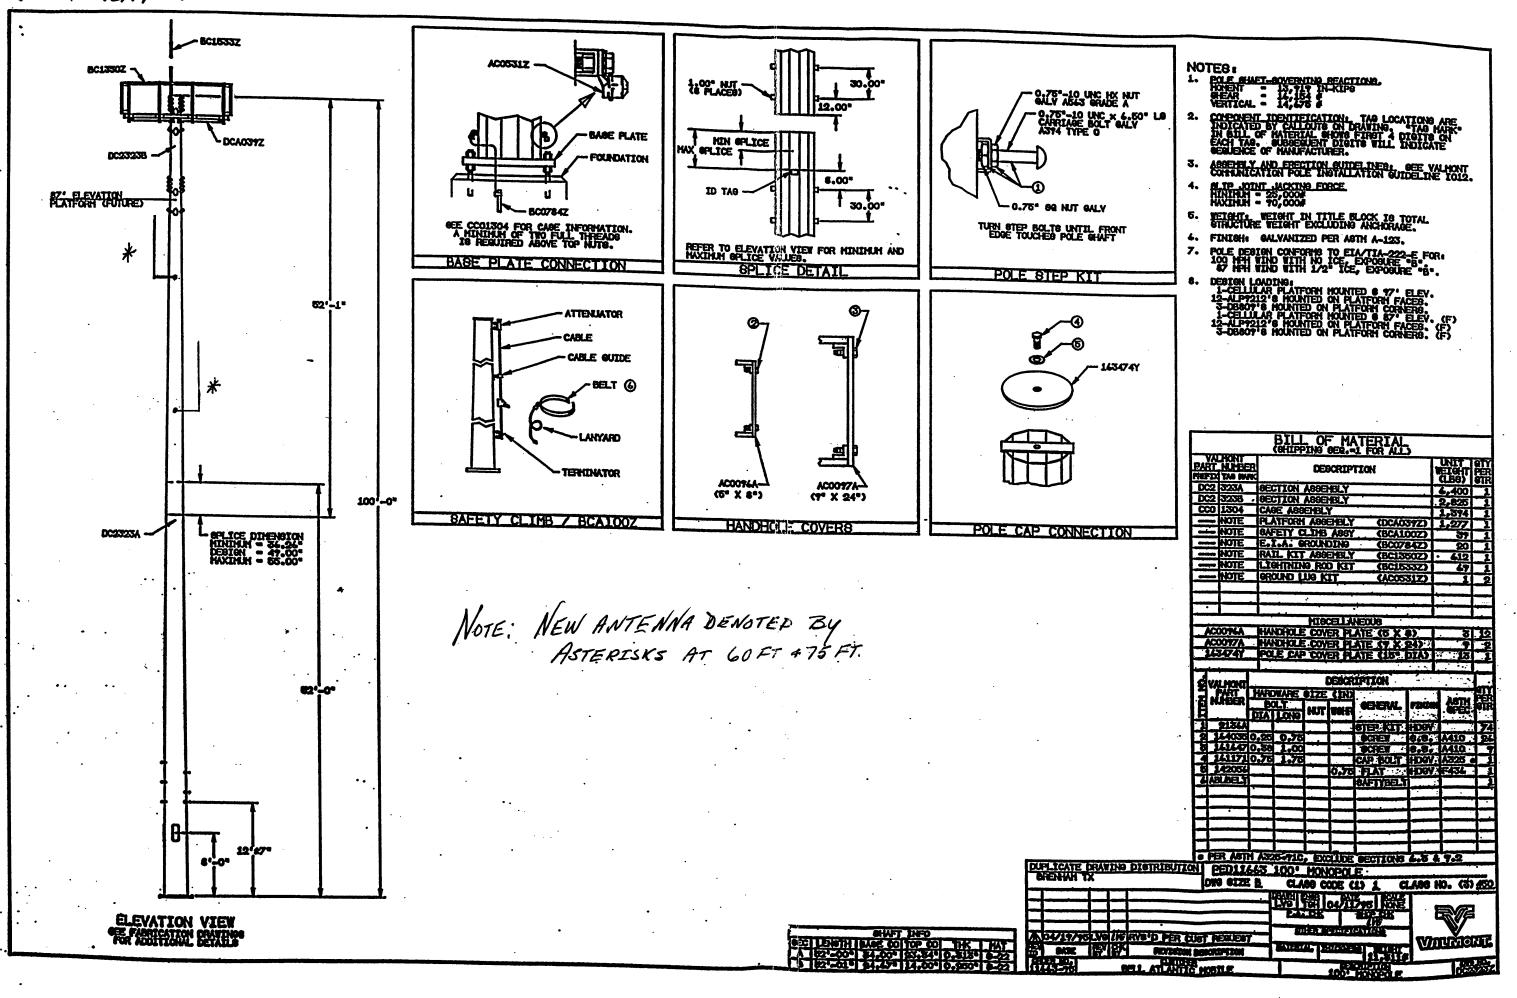

Ceter & Typell

Re:

EM-SCLP-064-981027 - Springwich Cellular Limited Partnership notice of intent to modify an existing telecommunications facility located at 11 Mountain Road in Hartford, Connecticut.

Dear Mayor Peters:

On October 27, 1998, the Connecticut Siting Council (Council) received a request from Springwich Cellular Limited Partnership to modify an existing telecommunications facility located at 11 Mountain Road in Hartford, Connecticut for the placement of antennas to be used by the Town of West Hartford, pursuant to Regulations of Connecticut State Agencies Section 16-50j-72.

The Council will consider this item at the next meeting scheduled for Thursday, November 5, 1998, at 1:30 p.m. in Hearing Room Three, Ten Franklin Square, New Britain, Connecticut.

Please call me or inform the Council if you have any questions or comments regarding this modification of an existing facility.

Thank you for your cooperation and consideration.

Very truly yours,

Joel M. Rinebold Executive Director
