Re: **EM-VER-067-151229 – Cellco Partnership d/b/a Verizon Wireless
66 Wall Street, Hebron, Connecticut**

Dear Ms. Bachman:

On January 19, 2016, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 66 Wall Street in Hebron, Connecticut. Cellco's modifications involved the replacement of antennas.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Tower Modification Certification

Project: Verizon Hebron CT
66 Wall Street, Hebron, CT 06248

Tower Owner: Town of Hebron c/o SBA Properties, Inc.

Engineer: FDH Velocitel

APT Project: CT141AWS9030 Hebron

CSC Exempt Mod Reference No.: EM-VER-067-151229

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by On-Air Engineering, LLC:

- Review of FDH Velocitel's Structural Analysis (FDH project #15CAXZ1400 R.1) dated 10/21/15;
- Review of On-Air Engineering, LLC's AWS Site Modification drawing dated 5/6/2016; and
- Photographs of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by FDH demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of any modification/reinforcement solution

Sincerely,
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.
Principal
