Re: **EM-VER-069-211019 – Cellco Partnership d/b/a Verizon Wireless
Telecommunications Facility, 520 Bailey Hill Road, Killingly, Connecticut**

Completion of Construction

Dear Ms. Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced Cellco facility modification has been completed.

As required by the Council's approval, attached is a letter from TEP Northeast dated Solutions Inc. dated November 1, 2022, verifying that Cellco's facility modifications were completed in accordance with the August 5, 2021 Mount Analysis Report by Maser Consulting.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Final Report of Special Inspections

Project: *Dayville CT*

Location: *520 Bailey Hill Road, Dayville, CT 06241*

Owner: *Verizon Wireless*

Engineer of Record: *Daniel P. Hamm, P.E.*
TEP Northeast

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of Hudson Design Group LLC performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on October 25, 2022.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-G), and the following:

1. Final Construction Drawings dated 09/23/2021, prepared by Hudson Design Group LLC, entitled "*Dayville CT.*"
2. Final Mount Analysis dated 08-05-2021, prepared by Maser Consulting.
3. Final Structural Analysis dated 09-22-2021, prepared by Hudson Design Group LLC.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications. This report does not include inspections for the findings of the global stability analysis and modifications to the structure. Those modification inspections, if required, are strictly the responsibility of the tower owner & general contractor performing such design and installation.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Daniel P. Hamm, P.E.
