RE: **EM-SPRINT-069-180123** – Sprint notice of intent to modify an existing telecommunications facility located at 79 Putnam Pike, Killingly, Connecticut.

Dear Mr. Perkowski:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on January 23, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in filing due to lack of notice. The Council issued a memorandum on January 17, 2017 to filers of exempt modifications requiring the filing be provided to the Planning and Zoning Department of the municipality in which the facility is located. See attached.

Your above referenced exempt modification filing lacks notice to the Planning and Zoning Department of the Town of Killingly.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Airosmith Development, Inc. provide proof of proper notice of this exempt modification filing on or before February 8, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to February 8, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Very truly yours,

Melanie Bachman
Executive Director
