Re: **EM-VER-070-180205 – Cellco Partnership d/b/a Verizon Wireless (“Cellco”)  
14 Route 80, Killingworth, Connecticut**

Dear Ms. Bachman:

On February 26, 2018, the Siting Council acknowledged receipt of Cellco’s notice of intent to modify its existing telecommunications facility at 14 Route 80 in Killingworth, Connecticut. As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the September 20, 2017 Structural Analysis Report, which was attached to the EM-VER-070-180205 filing. Attached is an Engineering Letter of Compliance verifying that this condition was satisfied.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE: Tower Modification Certification**

**Project:** Killingworth CT  
Route 80 Tower Hill Road, Killingworth, CT 06419

**Tower Owner:** Crown Castle USA

**Engineer:** Paul J. Ford & Company (tower), All-Points Technology Corporation, P.C. (mounts)

**APT Project No.:** CT141EB10391

**CSC Exempt Mod Reference No.:** EM-VER-070-180205

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by All-Points Technology Corporation, P.C.:

- Review of Paul J. Ford & Company's tower structural analyses dated September 20, 2017 and August 7, 2018;
- Review of APT's Mount Certification dated 5/8/2018;
- Review of APT's Design Exhibit drawings dated 5/11/2018; and
- Field Observations by APT personnel on 9/10/2019 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by Paul J. Ford & Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of any modification/reinforcement solution.

Sincerely,  
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.  
Principal
