Re: **EM-VER-072-150610 – Cellco Partnership d/b/a Verizon Wireless
889 Colonel Ledyard Highway, Ledyard, Connecticut**

Dear Ms. Bachman:

On June 29, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 889 Colonel Ledyard Highway in Ledyard, Connecticut. The modifications involved the replacement of antennas and the installation of new remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed in accordance with the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Tower Modification Certification

Project: Verizon Ledyard CT
889 Colonel Ledyard Highway Ledyard, CT

Tower Owner: Unknown

Engineer: Centek Engineering

APT Project No.: CT1415930 Ledyard

CSC Exempt Mod Reference No.: EM-VER-072-150610

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the structural analysis prepared by Centek Engineering:

- Review of Centek Engineering's Structural Analysis (Centek project #150001.044) dated 5/14/15;
- Field Observations by APT personnel on 3/9/17 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by Centek Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,
All-Points Technology Corporation, P.C.

Robert E. Adair, P.E.
Principal
