Re: **EM-VER-076-231025 – Cellco Partnership d/b/a Verizon Wireless
Telecommunications Facility, 864 Opening Hill Road, Madison, Connecticut**

Completion of Construction – Madison

Dear Attorney Bachman:

The purpose of this letter is to notify the Siting Council that construction activity associated with the above-referenced facility modification has been completed.

As required by the Council's approval, attached is a letter from MasTec Network Solutions dated June 26, 2024, verifying that the facility modifications were completed in accordance with the July 24, 2023, Mount Analysis Report prepared by Colliers Engineering and Design. A photograph of the completed improvements is also attached.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Notice of Completion
Site Name: Madison_CT
Location Code: 469141
Site Address: 864 Opening Hill Road, Madison, CT 06443

Dear Mr. Parks:

Mastec Network Solutions is providing this “**Notice of Completion**” regarding to the wireless telecommunications facility installation project at the above referenced site.

The following are the basis for substantiating the compliance with the **Construction Drawings**. Specifically, the installations comply with the:

- **Construction Drawings** prepared by Mastec Network Solutions., dated 08/08/2023.
- **Passing Structural Analysis Report**, prepared by Mastec Network Solutions, dated 10/18/2023 and **Passing Mount Analysis Report** by Colliers Engineering & Design, dated 07/24/2023. The analyses demonstrate that the existing structure and mounts will not exceed 100 percent of the tower and mount structural capacities for the proposed loading changes.

Site visit and field observations by Mastec personnel on March 13, 2024, of the completed installation show that installation is in general compliance with the aforementioned documents.

The work under this contract has been reviewed solely based upon provided site visit information including photos and was found, to the Registered Engineer’s best knowledge, information, and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification / replacement solution. Should you have any questions, comments or require additional information, please do not hesitate to contact us.

Regards,
Michael R. Shader, P.E.
Senior Electrical Engineer
