RE: **EM-VER-077-231004** - Cellco Partnership d/b/a Verizon Wireless notice of intent to modify an existing telecommunications facility located at 266R Center Street, Manchester, Connecticut.

Dear Domenica Tatasciore:

The Connecticut Siting Council (Council) is in receipt of your correspondence of October 25, 2023, submitted in response to the Council's October 25, 2023 notification of an incomplete request for exempt modification with regard to the above-referenced matter.

The submission renders the request for exempt modification complete and the Council will process the request in accordance with the Federal Communications Commission 60-day timeframe.

Thank you for your attention and cooperation.

Sincerely,

Melanie Bachman
Executive Director

MAB/ANM/laf

Hi Lisa,

Thanks for touching base with me regarding this application.
I understand that you are noting deficiencies with the SA and MA in terms of stamps/signatures.

I took a snip of the SA, shown below, with the PE's signature. The PDF, when combined, removes the digital signature (I'm not sure why Adobe Acrobat does that). Please let me know if this snip suffices:

<p>Crown Castle is pleased to submit this "Structural Analysis Report" to determine the structural integrity of the above-mentioned tower.</p>	
<p>The purpose of the analysis is to determine acceptability of the tower stress level. Based on our analysis we have determined the tower stress level for the structure and foundation, under the following load case, to be:</p>	
LC5: Proposed Equipment Configuration	Sufficient Capacity - 58.4%
<p>This analysis utilizes an ultimate 3-second gust wind speed of 118 mph as required by the 2022 Connecticut State Building Code. Applicable Standard references and design criteria are listed in Section 2 - Analysis Criteria.</p>

Further, the exact same scenario occurred with the MA – the digital signature also gets removed when the PDF gets combined. Here is proof of the signature:
