Re: **EM-VER-080-140522 – Cellco Partnership d/b/a Verizon Wireless
651 Paddock Avenue, Meriden, Connecticut**

Dear Ms. Bachman:

Attached is an Existing Telecommunications Facility Tower Certification Letter for the Paddock Avenue tower verifying that the structural modifications required to accommodate Cellco's antenna modifications have been completed. All construction associated with the above-referenced exempt modification filing has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in cursive script, appearing to read "Kenneth C. Baldwin".

Re: Existing Telecommunications Facility Tower Certification Letter

Project: Verizon Meriden SE
651 Paddock Avenue
Meriden, CT

Tower Owner: SBA Communications

Engineer: FDH Engineering
6521 Meridien Drive
Raleigh, NC 27616

Centek Project No.: 14055.034

CSC Exempt Mod Reference No.: EM-VER-080-140522

Dear Mr. Gauger,

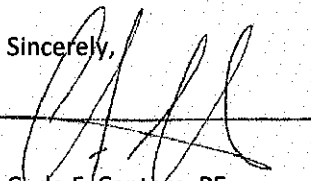

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1462J31400) dated April 15, 2014:

- Review of the FDH structural analysis report dated 04/15/2014.
- Field observations by Centek personnel of the coax and RRH installation on 01/21/2015 which determined all coax lines, RRH's and accessory equipment were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 04/15/2014.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
