Dear Veronica Chapman,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated November 29, 2024, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Kyle Archer of TSC Construction, LLC, dated November 22, 2024; and the construction drawings by B+T Group dated June 3, 2024; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Connecticut Siting Council (last revised June 3, 2024) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2022 Connecticut SBC/2021 IBC, 2022 Connecticut SBC/2021 IMC, and 2022 Connecticut SBC/2020 NEC).

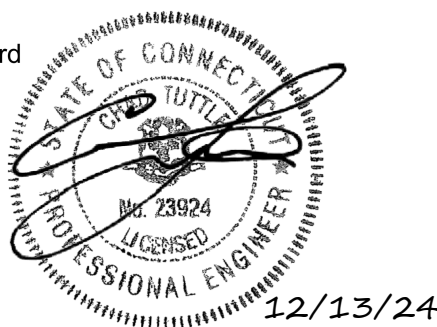

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the Connecticut Siting Council and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.

Engineer's Certification of Completion prepared by: Lisa M. Rider, E.I.T.

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.  
Engineer of Record
