RE: EM-T-MOBILE-082-211206 – T-Mobile notice of intent to modify an existing telecommunications facility located at 238 Meriden Road, Middlefield, Connecticut.

Dear Ms. Davis:

The Connecticut Siting Council (Council) is in receipt of your correspondence of January 4, 2022 submitted in response to the Council's January 4, 2022 notification of an incomplete request for exempt modification with regard to the above-referenced matter.

The submission renders the request for exempt modification complete and the Council will process the request in accordance with the Federal Communications Commission 60-day timeframe.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

Anne Marie unfortunately this is a huge file by Middlefield standards. You can see the First Selectmen's response. I only had time to go briefly through the old parts. I did not know exactly what you need but there is a lot of stuff in the file. Sorry I couldn't be of more help

Cell towers are under the jurisdiction of the Connecticut Siting Council and are not a matter for local jurisdiction, thus there would be no local approval.

Good morning Mr. Russ and Ms. Davidson,

I am seeking your assistance if at all possible in locating the original tower approval for the telecommunications facility located at 238 Meriden Road. I have been unable to locate the Town of Middlefield's decision in any Crown Castles files for this site. If the decision is on record in your office, would it be possible to have an electronic copy emailed to me? Please let me know either way, and I thank you in advance for your time and attention to this matter.

Best,

Anne Marie

RE: TS-OCI-082-990816 – Omnipoint Communications request for an order to approve tower sharing at an existing telecommunications facility located at 238 Meriden Road in Middlefield, Connecticut.

Dear Mr. Sharkey:

At a public meeting held August 31, 1999, the Connecticut Siting Council (Council) ruled that the shared use of this existing tower site is technically, legally, environmentally, and economically feasible and meets public safety concerns, and therefore, in compliance with General Statutes § 16-50aa, the Council has ordered the shared use of this facility to avoid the unnecessary proliferation of tower structures.

This facility has been carefully modeled to ensure that radio frequency emissions are conservatively below State and federal standards applicable to the frequency now used on this tower. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Any deviation from this format may result in the Council implementing enforcement proceedings pursuant to General Statutes § 16-50u including, without limitation, imposition of expenses resulting from such failure and of civil penalties in an amount not less than one thousand dollars per day for each day of construction or operation in material violation.

This decision applies only to this request for tower sharing and is not applicable to any other request or construction.

The proposed shared use is to be implemented as specified in your letter dated August 16, 1999. Please notify the Council when all work is complete.

Very truly yours,

Mortimer A. Gelston
Chairman
