Re: **EM-VER-083-150928 – Cellco Partnership d/b/a Verizon Wireless
67 Fairchild Road, Middletown, Connecticut**

Dear Ms. Bachman:

On October 26, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 67 Fairchild Road in Middletown, Connecticut. The modifications involved the replacement of antennas and the installation of remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Middletown 2
67 Fairchild Road, Middletown, CT

Tower Owner: SBA Communications Corp.
8051 Congress Avenue, Boca Raton, FL 33487

Engineer: FDH Velocitel Engineering Innovation
6521 Meridien Drive, Raleigh, NC 27616

Centek Project No.: 16003.23

CSC Exempt Mod Reference No.: EM-VER-083-150928

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH (FDH Project Number: 15BXQL1400):

- Review of FDH Structural Analysis dated 08/07/15.
- Review of FDH Modification Inspection Report dated 03/03/16.
- Field observations by Centek Engineering personnel on 08/19/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The modification design prepared by FDH demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
