Wireless Telecommunications Facility

Dear Veronica Delia Chapman,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated February 17, 2024, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by TSC Construction, LLC, dated February 15, 2024; and the construction drawings by B+T Group dated August 15, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the City of Middletown (last revised August 15, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2015 IBC, 2015 IMC and 2017 NEC).

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the City of Middletown and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.

Engineer’s Certification of Completion prepared by: Bthree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
Engineer of Record
