Wireless Telecommunications Facility

Dear Tristen Cantelli,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated November 21, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Tristen Cantelli of Centerline Communications, dated November 28, 2023; and the construction drawings by B+T Group dated June 10, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the City of Milford (last revised June 10, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC/2015 IBC, 2018 CT SBC/2015 IMC and 2018 CT SBC/2017 NEC).

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the City of Milford and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.

Engineer’s Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
