RE: **EM-CING-085-121218** - New Cingular Wireless PCS, LLC notice of intent to install a temporary cellular telephone facility for use at town owned property located at 375 Fan Hill Road, Monroe, Connecticut.

Dear Attorney Chiocchio:

The Connecticut Siting Council (Council) is in receipt of your request dated April 18, 2019, for an additional extension of time for the installation of the above-referenced temporary facility. Due to the continued coordination with the Town of Monroe for a permanent facility on town-owned property to replace the COW as part of a town-initiated redevelopment project, the Council hereby extends the installation of the existing temporary facility to June 30, 2021. This extension is granted with the understanding that the Council will be notified should New Cingular Wireless PCS, LLC decide to decommission the existing temporary facility prior to June 30, 2021.

This decision is under the exclusive jurisdiction of the Council. Any additional change to this temporary facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

MAB/IN/emr

Re: **EM-CING-085-121218** – New Cingular Wireless PCS, LLC notice of intent to install a temporary cellular telephone facility located on Town owned property at 375 Fan Hill Road, Monroe, Connecticut

Dear Executive Director Bachman:

On December 19, 2012, the Council acknowledged use of a temporary cellular telephone facility in the above-referenced regulatory filing submitted on behalf of New Cingular Wireless PCS, LLC (“AT&T”). The AT&T cell on wheels (“COW”) deployment at 375 Fan Hill Road, Monroe, which began in December 2012 in response to the Sandy Hook tragedy, remains in-place and continues to assist with critical communication needs of the Newtown and Monroe communities. As you know, several extensions for AT&T’s COW were granted to AT&T to allow continued reliable service in this area.

In our last two extension requests, we advised that AT&T and the Town of Monroe were coordinating on a permanent facility on Town-owned property to replace the COW. Over the last two years, AT&T and the Town of Monroe have met several times to discuss a permanent tower facility on the Jockey Hollow Fire Station located at 54 Jockey Hollow Road. The Town is in the process of redeveloping this property with a new fire station building and AT&T is coordinating with the Town’s EMS Building Committee and project architect to incorporate a proposed tower facility as part of the redevelopment project.

Given that Town’s redevelopment project is still in early stages of design, at this time, we are seeking a further extension of **EM-CING-085-121218** for two years through June 30, 2021 so that critical communication services can be maintained as the plans for the permanent facility are developed in connection with the Town’s redevelopment project. Please note that no changes to the COW are proposed. Accordingly, we respectfully request on AT&T’s behalf such additional time to maintain the COW and your acknowledgment to do so on the Council’s behalf.

Very truly yours,

Lucia Chiochio
