Re: **EM-VER-085-160705 – Cellco Partnership d/b/a Verizon Wireless  
1430 (a/k/a 1428) Monroe Turnpike, Monroe, Connecticut**

Dear Ms. Bachman:

On July 25, 2016, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 1430 Monroe Turnpike in Monroe, Connecticut. The modifications involved the replacement of antennas and the installation of remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE: Tower Modification Certification**

**Project:** Verizon Monroe NE CT  
1428 Monroe Turnpike Monroe, CT 06468

**Tower Owner:** SBA Communications

**Engineer:** Tower Engineering Solutions

**APT Project No.:** CT141AWS9300 Monroe NE

**CSC Exempt Mod Reference No.:** EM-VER-085-160705

Dear Mr. Parks,

All-Points Technology Corporation, P.C. (APT) is providing this 'Tower Modification Certification' with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by On-Air Engineering, LLC:

- Review of Tower Engineering Solutions' Structural Analysis (TES project #26398) dated 9/27/16;
- Review of On-Air Engineering, LLC's Construction Drawings dated 6/21/14; and
- Field Observations by APT personnel on 11/22/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis.

The structural analysis prepared by Tower Engineering Solutions demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the structural analysis.

Sincerely,  
All-Points Technology Corporation, P.C.

  
Robert E. Adair, P.E.  
Principal
