RE: EM-CING-086-160815 Notice of Completion of Construction for New Cingular

Wireless/ AT&T facility at 376 Butlertown Road, Montville, CT (ATT NO. CT2055)

Dear Ms. Bachman:

On behalf of New Cingular Wireless PCS, LLC (AT&T), please accept this letter as our notification of the completion of site construction and the commencement of site operations. Please find the enclosed close-out letter from an engineer. It confirms that the installation complied with the completed Structural Analysis for this site.

If you have any questions or need any additional information regarding this facility, please do not hesitate to contact me.

Sincerely

Carl Aquilina

RE: PE Close Out Letter

New Cingular Wireless PCS, LLC Site ID #CT2055

376 Butlertown Road, Montville, CT 06370

EM-CING-086-160815

Dear Mr. Bardin:

Hudson Design Group LLC (HDG) has completed its post-construction review of the above-referenced site to determine whether New Cingular Wireless PCS, LLC complied with conditions imposed by the Connecticut Siting Council's (the "Council") acknowledgment letter, dated 9-6-16 ("the Acknowledgment Letter"). Our compliance review included the following: the Acknowledgment Letter, the approved tower structural analysis report and recommendations by FDH Engineering dated 12-10-13 (the "Structural Analysis"), and the approved design plans by HDG dated 1-21-14.

On behalf of SAI communications, based on my review of the information, I, Derek J. Creaser, licensed professional engineer number 28551, certify that to the best of my knowledge, New Cingular Wireless PCS, LLC's work complied with the recommendations of the approved Structural Analysis.

Specifically, as required by the Acknowledgment Letter, New Cingular Wireless PCS, LLC's work complied with the following structural conditions imposed by the Council: The coax lines and accessory equipment was installed in accordance with the recommendations made in the above reference structural analysis report, and the structure and foundation do not exceed 100 percent of the post-construction structural rating.

Sincerely,

Derek J. Creaser, P. S. ONAL ENGLISHING

Sr. Project Manager Hudson Design Group LLC

RE: **EM-CING-086-160815** - New Cingular Wireless PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 376 Butlertown Road, Montville, Connecticut.

Dear Mr. Roberts:

The Connecticut Siting Council (Council) hereby acknowledges your notice to modify this existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies with the following conditions:

- 1. The proposed coax shall be installed in accordance with the structural analysis report performed by GPD Group dated December 10, 2013 and stamped by John Kabak;
- 2. Within 45 days following completion of equipment installation, New Cingular Wireless PCS, LLC (AT&T) shall provide documentation that its installation complied with the recommendations of the structural analysis
- 3. Any deviation from the proposed modification as specified in this notice and supporting materials with the Council shall render this acknowledgement invalid;
- 4. Any material changes to this modification as proposed shall require the filing of a new notice with the Council;
- 5. Within 45 days after completion of construction, the Council shall be notified in writing that construction has been completed;
- 6. Any nonfunctioning antenna and associated antenna mounting equipment on this facility owned and operated by New Cingular Wireless PCS, LLC (AT&T) shall be removed within 60 days of the date the antenna ceased to function;
- 7. The validity of this action shall expire one year from the date of this letter; and
- 8. The applicant may file a request for an extension of time beyond the one year deadline provided that such request is submitted to the Council not less than 60 days prior to the expiration.

The proposed modifications including the placement of all necessary equipment and shelters within the tower compound are to be implemented as specified here and in your notice dated August 12, 2016. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site by any dimension, increase noise levels at the tower site boundary by six decibels or more, and increase the total radio frequencies electromagnetic radiation power density measured

at the tower site boundary to or above the standards adopted by the Federal Communications Commission pursuant to Section 704 of the Telecommunications Act of 1996 and by the state Department of Energy and Environmental Protection pursuant to Connecticut General Statutes § 22a-162. This facility has also been carefully modeled to ensure that radio frequency emissions are conservatively below state and federal standards applicable to the frequencies now used on this tower.

This decision is under the exclusive jurisdiction of the Council. Please be advised that the validity of this action shall expire one year from the date of this letter. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman Acting Executive Director
