**Subject:** Construction Completion Letter

**Carrier Designation:** Site Name: NH312/ Crown-Naugatuck

**Engineering Firm Designation:** B+T Group Project Number: 145308.001.01

**Site Data:** 280 Elm Street, Naugatuck, CT 06770  
Latitude 41.47998000°, Longitude -73.05315000°  
Monopole

Dear Mr. York,

B+T Group is pleased to submit this “Construction Completion Letter” regarding the above mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on September 21, 2020. Based on the photographs provided and the construction drawings by B+T Group dated May 29, 2020, this telecommunications site has the following antennas and associated equipment installed in three sectors on the Monopole.

- New (3) Antennas
- New (3) RRUS
- New (2) 6x12 HCS Fiber
- New (2) BB 6630
- Modify Existing Mounts per Mount Analysis Report by CLS Engineering PLLC dated 5/29/19

The quantities and types of antennas and associated equipment from the photographs are in compliance, therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at B+T Group appreciate the opportunity of providing our continuing professional services to you and Centerline Communications. If you have any questions or need further assistance on this or any other projects, please give us a call.

Construction Control Inspection Letter prepared by: Sam Cody

Respectfully submitted by: B+T Engineering, Inc. (COA PEC.0001564 Exp. 2/10/21)
