Re: **EM-VER-089-140502 – Cellco Partnership d/b/a Verizon Wireless
723 Farmington Avenue, New Britain, Connecticut**

Dear Ms. Bachman:

On May 19, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 723 Farmington Avenue in New Britain, Connecticut. The modifications involved the replacement of certain antennas, the installation of remote radio heads and the installation of a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the modifications referenced in the structural report were completed. Attached is a Professional Engineer's Certification Letter verifying that the tower and foundation modifications were installed in accordance with the Structural Analysis and all construction activity has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Existing Telecommunications Facility Tower Certification Letter

Project: **Verizon New Britain 6**
723 Farmington Avenue
New Britain, CT

Tower Owner: **SBA Communications**

Engineer: **FDH Engineering**
6521 Meridien Drive
Raleigh, NC 27616

Centek Project No.: 14055.035

CSC Exempt Mod Reference No.: EM-VER-089-140502

Dear Mr. Parks,

We are providing this "Existing Telecommunications Facility Tower Certification Letter" with regard to the antenna upgrade by Verizon Wireless at the above referenced project.

The following are the basis for substantiating compliance with the FDH Engineering structural analysis report (FDH Project No. 1422CI1400) dated February 11, 2014:

- Review of the FDH structural analysis report dated 02/11/2014.
- Review of FDH subsequent structural analysis report dated 12/03/2014.
- Field observations by Centek personnel of the coax and RRH installation on 05/03/2015 which determined all coax lines and RRH's were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 02/11/2014.

The structural analysis prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the referenced structural analysis.

Sincerely,

Carlo F. Centore, PE
Principal ~ Structural Engineer
