Re: AT&T: CT2070 – New Fairfield SR37-SR39
 302 Ball Pond Road
 New Fairfield, CT 06812
MC Project No. 18963030A

To Whom it May Concern,

At the request of Qualtek Wireless, Maser Consulting has reviewed the post construction photographs and As-Built drawings, received from Qualtek Wireless on April 22, 2021, of the completed antenna upgrade at the above referenced telecommunications facility. Upon reviewing the aforementioned photographs and drawings, it has been determined that the equipment has generally been installed in accordance with the approved Rev 7 construction drawing prepared by Maser Consulting, dated December 1, 2020.

Variations from the construction drawings include the following:

Photo Number	Remarks	Findings
2021-03-08 at 1.47.37 PM (1) 2021-03-08 at 1.47.45 PM (2) 2021-03-08 at 1.59.03 PM (3)	RRHs mounted on monopole collar mount.	Negligible
2021-03-08 at 1.47.32 PM (1) 2021-03-08 at 2.00.26 PM (1)	8 Gauge DC Cables Installed	Negligible
2021-03-08 at 2.00.29 PM 2021-03-08 at 2.00.36 PM	Proposed fiber tray not installed (Fiber tray used was pre-existing)	Negligible

The above difference is considered **INCONSEQUENTIAL** and is considered to be in accordance with all state and local requirements. This evaluation of the as-built condition is based solely on the provided as-built drawings and photographs. This evaluation is only valid for the linear and discrete appurtenances listed in the referenced documents.

Any equipment that has been installed after the as-built photographs were taken is not part of this evaluation. Further, any equipment that has been installed, but was not captured in the provided as-built photographs, is not part of this evaluation. Maser Consulting reserves the right to amend this evaluation if more information is provided.

If you have any questions or comments, or require additional information, please do not hesitate to contact me.

Very truly yours,
Maser Consulting
