RE: EM-SPRINT-094-180206 - Sprint notice of intent to modify an existing telecommunications facility located at 2111 Berlin Turnpike (a/k/a Cedarwood Lane) Newington, Connecticut.

Dear Mr. Sagristano:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on February 6, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Structural Analysis (SA) Report dated December 21, 2017. The SA Report references Project Number 17924017A dated November 1, 2017 that lists the appurtenances which the SA Report is based on and it is unclear if the unistrut referenced on site plan sheet number ANT-007.00 dated December 2, 2017 is included in that list of appurtenances.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Cherundolo Consulting provide Project Number 17924017A dated November 1, 2017 with the unistrut referenced on the list of appurtenances or in the alternative an Updated Structural Analysis Report on or before March 20, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to March 20, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman signature
