Monopole

Dear Mr O'Donnell,

B+T Group is pleased to submit this "Construction Completion Letter" regarding the above mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on August 16, 2019. Based on the photographs provided and the construction drawings by B+T Group dated November 14, 2018, this telecommunications site has the following antennas and associated equipment installed in three sectors on the Monopole.

- (3) New Dual Band 700/850 RRH
- (3) New Dual Band AWS/PCS RRH
- (3) New Dual Antenna Mounting Brackets

The quantities and types of antennas and associated equipment from the photographs are in compliance, therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at B+T Group appreciate the opportunity of providing our continuing professional services to you and Verizon Wireless. If you have any questions or need further assistance on this or any other projects, please give us a call.
