RE: **EM-SPRINT-094-170310** – Sprint notice of intent to modify an existing telecommunications facility located at 605 Willard Avenue, Newington, Connecticut.

Dear Mr. Perkowski:

The Connecticut Siting Council (Council) is in receipt of the request for an extension of construction time for this exempt modification, dated December 4, 2017. Pursuant to Condition No. 6 of the Council's decision letter dated March 27, 2017, the Council considered your request for an extension of construction time for this exempt modification and grants a six-month extension of time until September 27, 2018, to complete the construction of this project.

This extension is granted with the understanding that the Council will be notified should Sprint decide not to proceed with construction.

Sincerely,

A handwritten signature in blue ink, appearing to read "Melanie A. Bachman".

Melanie A. Bachman

ORIGINAL

Dear Ms. Bachman:

This letter is to formally request an extension for Connecticut Siting Council EM-SPRINT-094-170310 which is a communication facility located at 605 Willard Ave, Newington, CT 06111. The original approval was made by the Connecticut Siting Council on March 27th, 2017, and a copy of the letter is attached in this mailing. We are certain that equipment will not be procured in time to begin the construction of this facility on or before March 27th, 2018, which is why we are requesting this extension.

If you have any questions or require any additional information regarding this request, please do not hesitate to give me a call at (518) 350-4222 or email me to aperkowski@airosmithdevelopment.com

Kind Regards,

RE: **EM-SPRINT-094-170310** – Sprint notice of intent to modify an existing telecommunications facility located at 605 Willard Avenue, Newington, Connecticut.

Dear Ms. Ardis:

The Connecticut Siting Council (Council) hereby acknowledges your notice to modify this existing telecommunications facility, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies with the following conditions:

1. Any deviation from the proposed modification as specified in this notice and supporting materials with the Council shall render this acknowledgement invalid;
2. Any material changes to this modification as proposed shall require the filing of a new notice with the Council;
3. Within 45 days after completion of construction, the Council shall be notified in writing that construction has been completed;
4. Any nonfunctioning antenna and associated antenna mounting equipment on this facility owned and operated by Sprint shall be removed within 60 days of the date the antenna ceased to function;
5. The validity of this action shall expire one year from the date of this letter; and
6. The applicant may file a request for an extension of time beyond the one year deadline provided that such request is submitted to the Council not less than 60 days prior to the expiration.

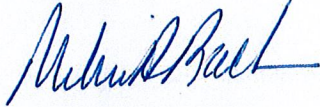

The proposed modifications including the placement of all necessary equipment and shelters within the tower compound are to be implemented as specified here and in your notice dated March 8, 2017. The modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to an existing facility site that would not increase tower height, extend the boundaries of the tower site by any dimension, increase noise levels at the tower site boundary by six decibels or more, and increase the total radio frequencies electromagnetic radiation power density measured at the tower site boundary to or above the standards adopted by the Federal Communications Commission pursuant to Section 704 of the Telecommunications Act of 1996 and by the state Department of Energy and Environmental Protection pursuant to Connecticut General Statutes § 22a-162. This facility has also been carefully modeled to ensure that radio frequency emissions are conservatively below state and federal standards applicable to the frequencies now used on this tower.

This decision is under the exclusive jurisdiction of the Council. Please be advised that the validity of this action shall expire one year from the date of this letter. Any additional change to this facility will require explicit notice to this agency pursuant to Regulations of Connecticut State Agencies Section 16-50j-73. Such notice shall include all relevant information regarding the proposed change with cumulative worst-case modeling of radio frequency exposure at the closest point of uncontrolled access to the tower base, consistent

with Federal Communications Commission, Office of Engineering and Technology, Bulletin 65. Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman
Executive Director
