RE: **EM-VER-094-181107** – Cellco Partnership d/b/a Verizon Wireless notice of intent to modify an existing telecommunications facility located 605 Willard Avenue, Newington, Connecticut.

Dear Mr. Murshteyn:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on November 7, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Radio Frequency (RF) Emissions Report provided with the request. The RF Emissions report provided is for a set of antennas at the 52-foot height of a facility located at the West Farms Mall; however the exempt modification request is for a site in Newington.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications provide an RF Emissions report for the site indicated in the exempt modification request on or before December 10, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to December 10, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director

MAB/CW/IN
