RE: **EM-CING-097-181206** – New Cingular Wireless, PCS, LLC (AT&T) notice of intent to modify an existing telecommunications facility located at 20 Barnabas Road, Newtown, Connecticut.

Dear Mr. Gentile:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on December 6, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the request. The construction drawing Sheets A1, A2 and A3 prepared by Hudson Design Group, last revised on November 27, 2018, include a structural note stating "all antennas and RRH's to be mounted in accordance with structural analysis provided by Malouf Engineering Intl. Inc. and final RF data sheet". The Structural Analysis provided with the request is prepared by All-Points Technology Corporation and dated November 5, 2018. This is inconsistent with the above referenced Construction Drawings.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Centerline Communications provide clarification on the above referenced structural note and construction drawings that are consistent with the Structural Analysis Report and the Mount Analysis provided with the request on or before January 14, 2019. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to January 14, 2019.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman  
Executive Director
