Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the Structural Analysis and Tower Reinforcing Report prepared by Centek Engineering, Inc. dated 11/14/14:

- Review of Centek Engineering, Inc. Structural Analysis and Tower Reinforcing Report.
- Field observations by Centek Engineering personnel 03/22/16 and photo documentation by the contractor on 4/29/16 of the completed modifications and upgrades that were installed in general compliance with the recommendations of the structural report prepared by Centek Engineering, Inc.

The modification design prepared by Centek Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,
