Re: **EM-VER-097-160129 – Cellco Partnership d/b/a Verizon Wireless  
201 South Main Street, Newtown, Connecticut**

Dear Ms. Bachman:

On February 29, 2016, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 201 South Main Street in Newtown, Connecticut. Cellco's modifications involved the replacement of antennas and remote radio heads.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

**RE:** Notice of Completion Certification

**Project:**           **Newton South CT**  
201 South Main Street  
Newton, CT 06470

**Engineer:**       Derek J. Creaser, P.E.  
Hudson Design Group LLC  
1600 Osgood St. Building 20 North, Suite 3090  
North Andover, MA 01845

**CSC Exempt Mod Reference No.: EM-VER-097-160129**

Dear Mr. Parks,

HDG is providing this "Notice of Completion Certification" with regard to the wireless telecommunications facility installation at the above referenced project.

The following are the basis for submitting compliance with the Construction Drawings prepared by Centek Engineering, Inc.:

- Review of the Paul J. Ford and Company Structural Analysis dated November 19, 2015,
- Field Observations by Hudson Design Group personnel on June 6, 2017 of the completed installation which was installed in general compliance with the aforementioned Structural Analysis.

The structural analysis prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the document(s) referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Respectfully Submitted,  
Hudson Design Group LLC

Derek J. Creaser, P.E.
