New Haven, CT 06510

RE: Springwich Cellular Limited Partnership and SNET Paging, Inc., notice of intent to modify an existing telecommunications tower and associated equipment operated by The Southern New England Telephone Company on Loon Meadow Road in Norfolk, Connecticut.

Dear Mr. Tyrrell:

At a meeting held on July 31, 1991, the Connecticut Siting Council acknowledged your notice of intent to modify an existing telecommunications tower and associated equipment operated by the Southern New England Telephone Company on Loon Meadow Road in Norfolk, Connecticut, pursuant to section 16-50j-73 of the Regulations of State Agencies (RSA).

The proposed modifications are to be implemented as specified in your notice dated July 8, 1991. As proposed, the modifications are in compliance with the exception criteria specified in RSA 16-50j-72 as changes to an existing facility site that due not increase the tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by six decibels or more, and add radio frequency sending or receiving capability which increases the total radio frequency electromagnetic radiation power density measured the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to section 22a-162 of the Connecticut General Statutes.

The Council is pleased to note that the shared use of an existing tower serves the Council's long-term goal of protecting the public interest by avoiding proliferation of additional tower structures.

Please notify the Council upon completion of construction.

Very truly yours,

Mortimer A. Gelston
Chairman
