Dear Carolyne Tanis,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated April 14, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Terrance Pennell Jr. of Ironbo Inc., dated April 17, 2023; and the construction drawings by B+T Group dated May 9, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the State of Connecticut (last revised May 9, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2015 IBC with Amendments and NEC 2017).

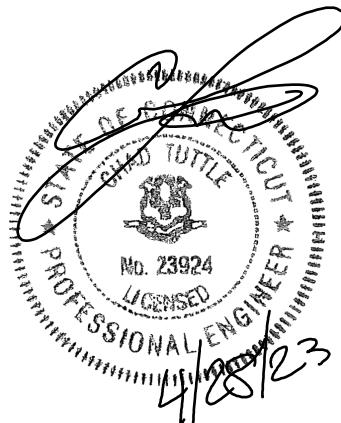

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the State of Connecticut and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer's Certification of Completion prepared by: Mark Wesel

Respectfully submitted by: B&T Engineering, Inc.

Chad Tuttle, P.E.
Engineer of Record
