Final Report of Special Inspections

Project: CT2028 (FA: 10034991)

Location: 225 Rodgers Road, Norwich, CT 06360

Owner: AT&T Mobility

Engineer of Record: Daniel P. Hamm, P.E.

Tower Engineering Professionals, LLC (TEP OPCO, LLC)

To the best of my information, knowledge and belief, the Special Inspections required by Chapter 17 for the project have been performed and all discovered discrepancies have been reported and resolved.

Representatives of TEP Northeast performed the Final Inspections after the construction of the telecommunications facility at the above-referenced address. The Final Inspection was performed on April 4, 2024.

Based on my knowledge, information and belief the wireless installation substantially conforms to the approved plans, IBC 2015 with 2018 CT State Building Code Amendments, Structural Standards for Antenna Supporting Structures and Antennas (ANSI/TIA-222-H), and the following:

1. Final Rev. 0 Construction Drawings dated 07/27/2022, prepared by Hudson Design Group LLC, entitled "AT&T 5G NR 1SR C BAND AMENDMENT PLAN."
2. Structural Analysis dated 02/28/2022, prepared by American Tower Corporation.
3. Mount Reinforcement Drawings dated 04/12/22, prepared by American Tower Engineering Service, PLLC.

All deviations from the approved plans do not endanger the intended occupancy of the facility and equipment substitutions are approved as equivalent to the original specifications.

Interim reports submitted prior to this final report form a basis for and are to be considered an integral part of this final report.

Respectfully submitted,
Special Inspector

Daniel P. Hamm, P.E.
