Re: **EM-VER-105-150828 – Cellco Partnership d/b/a Verizon Wireless
189 Boston Post Road, Old Lyme, Connecticut**

Dear Ms. Bachman:

On September 21, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 189 Boston Post Road in Old Lyme, Connecticut. Cellco's modifications involved the replacement of antennas and remote radio heads on the existing tower.

As a condition of the approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to the exempt modification filing. Attached is a Professional Engineer's evaluation letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Notice of Completion Certification

Project: Laysville, CT
189 Boston Post Road, Old Lyme, CT 06333

Engineer: Derek J. Creaser, P.E.
Hudson Design Group LLC
1600 Osgood St. Building 20 North, Suite 3090
North Andover, MA 01845

CSC Exempt Mod Reference No.: EM-VER-105-150828

Dear Mr. Parks,

HDG is providing this "Notice of Completion Certification" with regard to the wireless telecommunications facility installation at the above referenced project.

The following are the basis for submitting compliance with the Construction Drawings prepared by Centek Engineering, Inc.:

- Review of the Paul J. Ford and Company Structural Analysis dated July 06, 2015
- Field Observations by Hudson Design Group personnel on November 10, 2017 of the completed installation which was installed in general compliance with the aforementioned Structural Analysis.

The structural analysis prepared by Paul J. Ford and Company demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the document(s) referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Respectfully Submitted,
Hudson Design Group LLC

Derek J. Creaser, P.E.
