RE: T-Mobile Northeast LLC – CTNL801A
Notice of Exempt Modification
61-1 Buttonball Road, Old Lyme, CT
Assessor's Parcel# 8-11-1
LAT: 41-17-46.55" N
LNG: -72-1.73" W

Dear Ms. Bachman:

T-Mobile Northeast LLC ("T-Mobile") currently maintains three (3) antennas at the 97' level and three (3) antennas at the 87' level on the existing 100' tall monopole located at 61-1 Buttonball Road in Old Lyme, CT. The tower is owned by Bay Communications. T-Mobile now intends to remove the three (3) existing antennas located at the 87' level and replace them with three (3) new 2100 MHz and 700 MHz antennas. These antennas would be installed on a new flush mount at the 95' level of the tower. Additionally, T-Mobile would install three (3) RRU's below the new antennas.

The existing facility consists of a 100-foot monopole tower. The Connecticut Siting Council approved this tower on September 23, 2010 (Docket No. 393). The decision stipulated that the tower shall be constructed as a stealth monopole with flush-mounted antennas, the tower shall not exceed a height of 100 feet above ground level and the height at the top of T-Mobile's antennas shall not exceed 100 feet above ground level. T-Mobile's proposed equipment modifications meet these conditions as the proposed antennas will be flush-mounted and will not exceed the top of the existing 100' tower.

Please accept this letter as notification pursuant to Regulations of Connecticut State Agencies 16-50j-73, for construction that constitutes an exempt modification pursuant to R.C.S.A. 16-50j-72(b)(2). In accordance with R.C.S.A. 16-50j-73, a copy of this letter is being sent to the First Selectman Bonnie Reemsnyder, Bay Communications as tower owner, and the property owner, Ron Swaney LLC.

The planned modifications to the facility fall squarely within those activities explicitly provided for in R.C.S.A. 16-50j-72(b)(s).

1. The proposed modifications will not result in an increase in the height of the existing structure. T-Mobile proposes to replace three (3) existing antennas with
