Re: **EM-VER-113-130809 – Cellco Partnership d/b/a Verizon Wireless
74 Goodrich Lane, Portland, Connecticut**

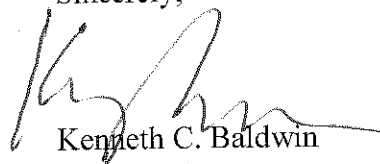

Dear Ms. Bachman:

On August 27, 2013, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 74 Goodrich Lane in Portland. The modification involved the replacement of certain antennas.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations specified in the structural report were implemented. Attached is a Tower Modification Certification Letter verifying that these conditions have been satisfied. All construction associated with these modifications has now been completed.

If you have any questions please do not hesitate to contact me or Rachel Mayo.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Portland
74 Goodrich Lane, Portland, CT

Tower Owner: Crown Castle
3530 Toringdon Way, Suite 300, Charlotte, NC

Engineer: B&T Group
1717 S. Boulder Street, Suite 300, Tulsa, OK

Centek Project No.: 14055.003

Dear Mr. Gauger,

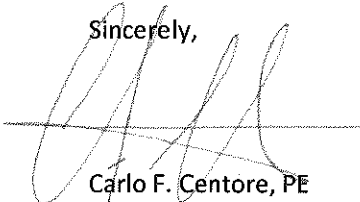

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by B&T Group (B&T Project Number: 81363.004.01):

- Review of the B&T Engineering Structural Analysis dated 05/29/2013.
- Review of the FDH Engineering Modification Drawings S-1 thru S-5 dated 05/29/2013 Rev-0.
- Review of the Tower Engineering Professionals Modification Inspection Report dated 09/17/2013.
- Field observations by Centek Engineering personnel on 04/22/2014 of the completed modifications.

The modification design prepared by B+T Group demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Senior Project Manager
