**Cc:** Bachman, Melanie; CSC-DL Siting Council  
**Subject:** EM-T-MOBILE-117a-151023 32 Peaceable Street, Redding, CT

Good Morning Lisa,

Shaun Donnelly, Building Official for the Town of Redding, has informed us that the physical address of the existing Eversource transmission pole and T-Mobile facility for the above referenced exempt modification is actually 51 Peaceable Street, not 32 Peaceable Street as indicated in the CSC database. In order to issue a building permit to T-Mobile, Mr. Donnelly has asked for something in writing from the Siting Council which confirms that T-Mobile was granted an approval to modify its existing installation with the correct address of 51 Peaceable Street. He also requested that the Siting Council make the correction in their database to reflect the correct address.

Can you please provide a revised exempt mod acknowledgement at your earliest convenience.

Thank you for your assistance in this matter. Please call me with any questions or concerns.

Eric Dahl
