Monopole

Dear Mr. Brodka,

B+T Group is pleased to submit this "Construction Completion Letter" regarding the above mentioned Monopole.

We reviewed the photographs of the telecommunications equipment installed on the Monopole, taken on March 11, 2021. Based on the photographs provided, the As Built drawings by Eli Pitts, and the construction drawings by B+T Group dated February 07, 2020, this telecommunications site has the following antennas and associated equipment installed in three sectors on the Monopole.

- (6) New Antennas
- (6) New RRHs
- (3) New Side-by-Side Antenna Mounts
- Mount modification by Paul J. Ford and Company dated January 9, 2020

The quantities and types of antennas and associated equipment from the photographs are in compliance, therefore, it is our opinion that the antennas and associated equipment were properly installed.

We at B+T Group appreciate the opportunity of providing our continuing professional services to you and Crown Castle. If you have any questions or need further assistance on this or any other projects, please give us a call.
