Dear Veronica Delia Chapman,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated June 15, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Cameron Boggs of Tilson Technology, dated June 30, 2023; and the construction drawings by B+T Group dated June 20, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the City of Shelton (last revised June 20, 2022) and that said improvements meet the intent of the applicable Codes listed on said drawings (e.g., 2021 IBC and NEC 2020).

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the City of Shelton and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office. Thank you.

Engineer's Certification of Completion prepared by: Bhree Barrett

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.  
Engineer of Record
