Subject:	Engineer's Certification of Completion	
Jurisdiction Designation:	Building Permit Number:	22-56B
Verizon Designation:	Site ID:	467220
Engineering Firm Designation:	Project Number:	87311.019.01
Site Data:	400 Main Street, Somers, CT 06071 Latitude 41.983731°, Longitude -72.465513° Wireless Telecommunications Facility	

Dear David Soeder,

I, Chad Tuttle, a registered professional engineer in the state of Connecticut with Registration No. 23924, have examined site photographs provided by the Client, last dated September 27, 2023, for the Wireless Telecommunications Facility referenced above. Based on the photographs provided; As Built drawings certified by Greg Drake of Eastern Communications, Inc., dated October 3, 2023; and the construction drawings by B+T Group dated March 4, 2022; I hereby certify that to the best of my knowledge, information, and belief all constructed improvements are in substantial compliance with the permitted construction drawings approved by the Town of Somers (last revised March 4, 2022) and that said improvements meet the design in the Post-Modification Antenna Analysis Report prepared by GPD Engineering And Architecture Professional Corporation, dated September 9, 2021, as well as the intent of the applicable Codes listed on said drawings (e.g., 2018 CT SBC/2015 IBC, 2015 IMC, and 2017 NEC).

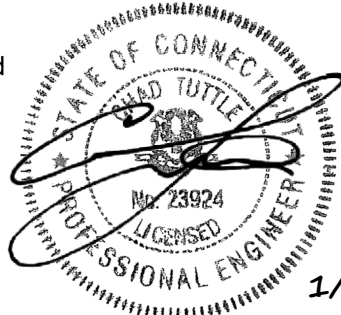

In my professional opinion, any minor deviations from the drawings and specifications will not prevent the project from functioning in compliance with the requirements of the Town of Somers and other applicable regulatory agencies listed in the drawings.

Should you have any questions or require any additional information, please do not hesitate to contact our office.

Engineer's Certification of Completion prepared by: Lisa M. Rider, E.I.T.

Respectfully submitted by: MTS Engineering P.L.L.C.

Chad Tuttle, P.E.
