Re: **EM-VER-131-140814 – Cellco Partnership d/b/a Verizon Wireless
1394 Meriden Waterbury Turnpike, Southington, Connecticut**

Dear Ms. Bachman:

On September 2, 2014, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its telecommunications facility at 1394 Meriden Waterbury Turnpike in Southington, Connecticut. The modifications involved the replacement of certain antennas and installation of remote radio heads and fiber lines.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that the recommendations made in the structural report were complied with. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to the structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Milldale
1394 Meriden Waterbury Turnpike, Southington, CT

Tower Owner: Crown Castle
3530 Toringdon Way, Suite 300, Charlotte, NC

Engineer: FDH Engineering
6521 Meridien Drive, Raleigh, NC

Centek Project No.: 15003.055

CSC Exempt Mod Reference No.: EM-VER-131-140814

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by FDH Engineering (FDH Project Number: 1466OA1400):

- Review of the FDH Engineering Structural Analysis dated 06/05/2014.
- Review of the FDH Engineering Modification Drawings S-1 thru S-4 dated 06/05/2014.
- Review of the Tower Engineering Professionals Modification Inspection Report dated 10/30/2014.
- Field observations by Centek Engineering personnel on 11/11/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared by FDH Engineering on 06/05/2014.

The modification design prepared by FDH Engineering demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
