RE: Bell Atlantic NYNEX Mobile, Inc. notice of intent to modify antenna configurations at its cell sites located on Burnham Street, South Windsor and Forbes Street, East Hartford.

Dear Ms. Gaudet:

At a meeting held October 10, 1995, the Connecticut Siting Council (Council) acknowledged your notice of exempt modifications at existing facilities located off Burnham Street, South Windsor and Forbes Street, East Hartford, Connecticut, pursuant to Section 16-50j-73 of the Regulations of Connecticut State Agencies.

The proposed modifications are to be implemented as specified in your notice dated September 21, 1995. These modifications are in compliance with the exception criteria in Section 16-50j-72 (b) of the Regulations of Connecticut State Agencies as changes to existing facility sites that would not increase tower height, extend the boundaries of the tower site, increase noise levels at the tower site boundary by six decibels, and increase the total radio frequency electromagnetic radiation power density measured at the tower site boundary to or above the standard adopted by the State Department of Environmental Protection pursuant to General Statutes § 22a-162.

Please notify the Council when all work is complete.

Very truly yours,

Mortimer A. Gelston  
Chairman

MAG/FOC/ss

Executive Director  
Connecticut Siting Council  
136 Main Street, Suite 401  
New Britain, Connecticut 06051

Re: Bell Atlantic NYNEX Mobile - South Windsor and East Hartford Cell Sites

Dear Mr. Rinebold:

Bell Atlantic NYNEX Mobile ("BANM" or the "Company") plans to make certain changes to the antenna configurations at its cell sites located on Burnham Street, South Windsor and Forbes Street, East Hartford. Please accept this letter as notice of intent, pursuant to R.C.S.A. § 16-50j-73, of construction which constitutes an exempt modification pursuant to R.C.S.A. § 16-50j-72(b). In compliance with R.C.S.A. Section 16-50j-73, a copy of this letter is being sent to Mayors of South Windsor and East Hartford.

The existing South Windsor facility consists of a 110' monopole tower and an equipment shelter located at 190 Burnham Street in South Windsor. This facility was approved by the Connecticut Siting Council in its November 14, 1990 Decision and Order in Docket No. 137. The existing East Hartford facility consists of a 110' monopole tower and an equipment shelter located at 1455 Forbes Street in East Hartford. This facility was approved by the Connecticut Siting Council in its September 11, 1991 Decision and Order in Docket No. 139.

At each site, the Company intends to replace all existing antennas with twelve panel type antennas. The change in antenna configuration at each of the tower sites does not constitute a modification as defined in C.G.S. Section 16-50i(d) because the general physical characteristics of the facility will not be significantly changed or altered. Rather, the planned changes to the facilities fall squarely within those activities explicitly provided for in R.C.S.A. § 16-50j-72(b).

First, the height of the tower at each location will not be increased. Twelve panel type antennas, Swedcom Model ALP

Mr. Joel M. Rinebold

Page 2

9212-N, approximately 4' in height, will be mounted with the center of radiation at the 110' level of the towers. The current dual platform configuration will be modified by adding a rail assembly to each platform and removing the vertical mounting pipes between them. The twelve panel antennas will be mounted on the top rail assembly. These antennas will replace the top-mounted omnidirectional antennas as well as the transmit/receive antennas currently mounted between the platforms. These changes will reduce the overall height of the structures (including appurtenances) from 123' to 112'.

Second, the planned changes will not extend the site boundaries. There will be no changes to the sites.

Third, the planned changes will not increase the noise levels at the existing facilities by six decibels or more. The additional antennas will not result in any change in noise levels.

Fourth, operation of the new antennas will not increase the total radio frequency electromagnetic radiation power density, measured at the tower base, to a level at or above the ANSI standard. A "worst-case" calculation for a point at the base of the tower indicates that BANM's antennas would result in a level of 0.0564 mW/cm<sup>2</sup>. This power density level is 9.7% of the ANSI standard for uncontrolled environments at cellular frequencies of approximately 0.583 mW/cm<sup>2</sup>.

For the foregoing reasons, Metro Mobile respectfully submits that the proposed additions of antennas to the South Windsor and East Hartford facilities constitute exempt modifications under R.C.S.A. Section 16-50j-72(b).

Respectfully yours,

Jennifer Young Gaudet  
Manager - Regulatory

The Honorable Robert M. DeCrescenzo  
Mayor  
Town Hall  
740 Main Street  
East Hartford, Connecticut 06108

Dear Mayor DeCrescenzo:

Bell Atlantic NYNEX Mobile (the "Company") plans to make changes to its antenna configuration on its tower located on Forbes Street. As required by Section 16-50j-73 of the Regulations of Connecticut State Agencies ("R.C.S.A."), please accept this letter and the attached letter to the Connecticut Siting Council dated September 21, 1995, as notice of intent to construct an "exempt modification" pursuant to R.C.S.A. Section 16-50j-72(b).

The attached letter fully sets forth the Company's proposal. However, if you have any questions or require any further information on our plans or the Siting Council's procedures, please contact the undersigned or Mr. Joel M. Rinebold, Executive Director of the Connecticut Siting Council at 827-7682.

Sincerely,

Jennifer Young Gaudet  
Manager - Regulatory

South Windsor, Connecticut 06074

Dear Mayor Ryan:

Bell Atlantic NYNEX Mobile (the "Company") plans to make changes to its antenna configuration on its tower located on Burnham Street. As required by Section 16-50j-73 of the Regulations of Connecticut State Agencies ("R.C.S.A."), please accept this letter and the attached letter to the Connecticut Siting Council dated September 21, 1995, as notice of intent to construct an "exempt modification" pursuant to R.C.S.A. Section 16-50j-72(b).

The attached letter fully sets forth the Company's proposal. However, if you have any questions or require any further information on our plans or the Siting Council's procedures, please contact the undersigned or Mr. Joel M. Rinebold, Executive Director of the Connecticut Siting Council at 827-7682.

Sincerely,

Jennifer Young Gaudet
