Re: **EM-VER-135-150325 – Cellco Partnership d/b/a Verizon Wireless
370 West Main Street, Stamford, Connecticut**

Dear Ms. Bachman:

On April 24, 2015, the Siting Council acknowledged receipt of Cellco's notice of intent to modify its existing telecommunications facility at 370 West Main Street in Stamford, Connecticut. The modifications involved the installation of additional remote radio heads.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the structural report attached to that filing. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the installation was completed according to that structural report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Stamford W.
370 West Main St, Stamford, CT
Tower Owner: Westside Storage Co.
370 West Main Street, Stamford, CT
Engineer: Centek Engineering, Inc.
63-2 North Branford Road, Branford, CT

Centek Project No.: 15003.024

CSC Exempt Mod Reference No.: EM-VER-135-150325

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the tower modification documents prepared by Centek Engineering, Inc. (Centek Project Number: 14067.006):

- Review of Centek Engineering, Inc. Structural Analysis dated 03/17/15.
- Field observations by Centek Engineering personnel on 08/03/16 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the aforementioned structural analysis report.

The modification design prepared by Centek Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
